

Phase I Environmental Assessment

Piney Creek Power Plant Clarion, PA

Client: Blue Mountain Environmental Management Corp.
1191 Pittsburgh Road
Valencia, PA 16059

Site Acreage: 207

Donald Landon – 724.898.4500

Work Timeframe: November, 2004

Services completed: In accordance with ASTM E 1528-00 requirements, a Phase I Environmental Site Assessment was performed for the 207 acre coal-fired Piney Creek Power Plant. The assessment included four components: records review, site reconnaissance, interviews and report preparation. The assessment included documentation to support the analysis and conclusions of the conducting engineers.
