

Conneaut Creek Bridge

PADOT SR 3006

Albion, PA

Client: HDR Engineering Inc.
3 Gateway Center
Pittsburgh, PA 15222
Kenneth J. Wright, P.E.
412-497-6000

Work Timeframe: 2000 - Present

Services Completed: Baseline establishment, S.R. 3006 and stream profile/cross sections, topographic feature surveys, and benchmark placement were performed for the assembly of data needed in the project design. After design was completed, construction control was set, and sketches of reference points, swing ties, and benchmarks were produced.
