

WVDOT - Corridor H

Grant County, WV

Client: Site-Blauvelt Engineers
One Kenton Drive, Suite 200
Charleston, WV 25311-1256
Richard E. Plymale, Jr., PE
304-346-2599

Work Timeframe: 2002 - 2003

Services Completed: Initial surveys produced a rough reference plot of researched properties, set traverse points for field surveying, and checked existing mapping by cross-sections. Topographic features, drainage, property boundary markers, waterways, and other items were located in field surveys. Upon design approval, surveys were completed for final control and reference needed in construction. Additional tasks included the staking of approximately 150 mainline and structural borings, preliminary centerline stakeout, and final field review.
